Thomas I. Russell, one of the best known cabinet makers and undertakers in Wilmington, Del., says he contracted an exceedingly severe attack of rheumatism this Winter. He is subject to the disease, but rarely ever felt it so severely as the time under consideration. The disease located itself in his right leg and foot, rendering that member so stiff and sore that he could not move without enduring excruciating pain. St. Jacobs Oil had been so highly recommended that he concluded to try it. He has every cause to be glad that he did so. Two applications of the wonderful remedy gave him entire relief, and he has not been troubled with rheumatism since. Mr. Russell says he considers St. Jacobs Oil a fine remedy for rheumatism and now keeps it by him for ready use.

A SUBJECT WORTHY OF CONSIDERATION.

The bill now pending in Congress appropriating \$75,000 for United States Court buildings, etc., in Carson, is the subject of much comment among lawyers and those who have business in the United States Court and land office. Those most interested in the matter think Congress will make a grave mistake if they locate the proposed building in Carson, and there is certainly much logic in the argument they advance. First, they say those who are obliged to attend court, who live in the eastern part of the State, are under the necessity of remaining in Reno over night both coming and going, and those who come from the west are obliged to pay \$6 or \$7 more railroad fare than they would if the buildings were located at Reno. Reno seems to be the choice of nine-tenths of the attorneys, and it would be much more convenient for Judge Sawyer. One of the principal arguments advanced is that Carson seems to be going to decay without a hope of ever improving her condition, while Reno is keeping pace with the rest of the world and fast going to the front as a business centre. It is certainly a fact, and a stubborn one too, that Reno has many advantages over Carson which ought, and no doubt will, be carefully considered by our representatives in Congress. It will be well for Senators Fair and Jones and Congressman Cassidy to give the subject careful attention, and consult the best interests of our Government as well as those who will have business to transact. To do the greatest good to the greatest number ought to be their motto.

We have no doubt, if this matter receives the attention it ought to receive, that Reno will be selected as the most available point to locate government buildings.

EDITORIAL NOTE.

To encourage tree planting along its line, the Northern Pacific Railroad offers free transportation of forest trees, tree seed and cuttings, and also offers prizes to those most successful in planting groves. The premiums are free passes over the road to and from St. Paul, at such date as to allow its holder to attend the annual meeting of the State Forestry Association. The first premium awards are made to two men in each county through which the Northern Pacific may pass who, under prescribed rules, accomplish the best results in tree planting. On their premium tickets they can travel the round trip, taking with them their wives and children.

Mr. W. H. Vanderbilt's fortune is now so colossal that, like a snowball rolling down hill of its own impetus and weight, it grows. It is said he owns \$60,000,000 of Government 4s, bought within the last two years. During that time these bonds have advanced ten per cent in price, and he has received eight per cent interest, or an increase to his fortune of \$11,000,000. He could buy out any man in the world, and still have millions left.

One hundred and forty-eight thousand and four hundred and eighty one Germans came over here during the nine months preceding the first of April, against 102,093, during the same period the year previous. A large proportion of them have gone directly to the Northwest.

Tuscarora is booming. The Times-Review remarks: "Since the recent strikes, confidence has been restored in our camp. Some of our business men have gone so far as to wash their windows and remove their old hats and renew the broken panes of glass."

An eastern merchant says that he has proved beyond a doubt that \$1,000 spent in advertising brings him in more trade than a \$5,000 drummer.

It is expected that within the next three weeks 25,000 more Chinese will be landed upon this coast.

A ship went ashore on the English coast Saturday night. All hands drowned. No name given.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

Funeral of Ralph Waldo Emerson.
CONCORD, Mass., April 30.
The last rites over the remains of Ralph Waldo Emerson took place this afternoon. A special train from Boston brought many people thither. Almost every building in town bore some drapery, public buildings being heavily draped. The services at the house were conducted by Rev. W. H. Farness of Philadelphia, and were of a simple character. The aged mother of the poet, his wife and daughter Ellen, sat near the coffin. After the services the procession formed and the body was taken to the Unitarian Church, but a short distance from the house. The church was crowded with mourners, and when the body was placed in front of the pulpit, Judge Rockwood Hoar took a place at the head of the coffin. When the family and friends were seated Judge Hoar began a beautiful address with the words, "The beauty of Israel is fallen in its high place." Selections from the Scriptures followed, and Rev. James Freeman Clarke delivered a long and interesting address upon the life and works of Emerson. Prayer and benediction closed the exercises in the church. The people of Concord then looked upon the face of the dead and the coffin was closed and borne to the cemetery. Rev. Dr. Haskins, Episcopal clergyman and member of the family here, read the Episcopal burial service and the body was lowered into the grave. The people and clergymen then united in reciting the Lord's Prayer, closing with the words, "and deliver us from evil."

Vanderbilt's Bomb.

Postmaster Pearson has no clue to the senders of the explosive packages to Vanderbilt and Field. He will examine collectors to-morrow. A little glass globe of fluid was taken out the machine intended for Vanderbilt. He sent it to Professor Ogden Doremus, who declared the fluid to be sulphuric acid, which, if brought in contact with gunpowder and chlorate of potash, even in small quantities, would cause it to explode.

The Tribune, reviewing the recent event, says: If a large body of conspirators or any persons of intelligence had been at the bottom of it, they would at least have taken care that the packages were correctly addressed to the intended victims. Moreover, no man with correspondence so large as either Vanderbilt or Field has, can take the trouble to open many of his letters, let alone packages.

Another Infernal Machine.

New York, April 30.
Early this morning John A. Davenport, of 319 East Nineteenth street, visited Police headquarters, carrying with him an infernal machine similar to those sent Wm. H. Vanderbilt and Cyrus W. Field yesterday, and evidently prepared by the same person. It had been placed in the hallway of Davenport's house last night and exploded at 10 o'clock, setting fire to the door-mat, but doing no damage. The intention was to set fire to the house. The machine was a cigar box bound with wire, and contained cotton, which was set on fire by the explosion, the powder being ignited by a fuse. There was just sufficient powder to shatter the box and ignite the cotton. The box was probably intended for Supt. Walling, the letter "W" being written plainly on it and he living a few doors distant.

A Rod in Pickle for Somebody.

New York, May 1.
The Tribune's Washington specials have the following points: Howgate's friends continue to say he will give himself up for trial, but will not be heard from till he is wanted in court. The authorities believe there are several persons of standing in this community who have reason to fear developments which are likely to be made when Howgate is tried, and these persons will furnish any money that the captain needs in making good his escape.

Burial of Gen. Hurlbut.

BELVIDERE, Ill., April 30.
The remains of Gen. Olenphen A. Hurlbut, late Minister to Peru, were buried with appropriate ceremonies here to-day. About 10,000 people were present. Among the participants were five companies of the third regiment, State militia; six companies of Knights Templar, a number of Blue lodges, members of the bench and bar of Belvidere, and three hundred veterans of the late war who served under him.

Troops for Arizona.

ST. PAUL, Minn., April 30.
The Seventh Infantry, General Gibbon, have been ordered to hold themselves in readiness to proceed at once to Arizona to take part in the Apache campaign. The Fourth Infantry and Third Cavalry are under like orders.

Setting a Trap.

WASHINGTON, May 1.
Townsend, of Illinois, offered in the House to-day a joint resolution to repeal all provisions of existing treaties with China permitting immigration of Chinese laborers to the United

States. The House refused to second the resolution by a vote of 100 to 25, Page, of California, being the only Republican who voted to second it. Townsend then said he offered the resolution to show that only one Republican had courage to favor it. Townsend moved to suspend the rules and pass the following joint resolution: "Resolved, That the President be authorized and requested to immediately open correspondence with the Government of China for the purpose of securing a change or abrogation of all stipulations in existing treaties which permit emigration to the United States except for travel, education and foreign commerce." The House (ayes 62, nays 100) refused to second the demand for suspension.

Items from the British Capital.

NEW YORK, May 1.
The melancholy scene was witnessed during last week of a procession of unemployed laborers bearing through the streets a wretched banner, directing attention to their condition, and to a fund attempted to be raised by the Lord Mayor to promote emigration, which amounted to the magnificent sum of 100 pounds. Had a subscription of thousands been wanted to retain Jumbo it would have been raised in less than one day.

The news of Emerson's death was received with wide regret, no American man of letters being so highly esteemed among cultured English people. The papers contained long obituaries. The Times said the world will not be agreed as to the exact nature of Emerson's literary might, but it will be admitted that his country lost a man of genius of which it might well be proud.

LONDON, May 1.

Hanlon won the race with Trickett to-day by four lengths, with the greatest ease.

The President's Power to Suppress Lawlessness.

WASHINGTON, May 1.
Senator Edmunds, from the Judiciary Committee, reported back in relation to the President's message about lawlessness in Arizona that it was the opinion of the Committee that additional legislation is not essential to empower the President to suppress lawlessness in Territories; that he can, under existing laws, notify lawless gangs to disperse and cease disturbances. If they do not obey this proclamation, the President can then use such force as he may deem necessary, including the army, to suppress lawlessness and restore order. This was assented to and the Committee discharged.

More Canal Projects.

WASHINGTON, May 1.
In the House bills were introduced authorizing a special commission to promote commercial intercourse with Central and South American States; also, for a commission of three army engineers to determine the best route for a ship canal to connect the great lakes with the Missouri river and the Atlantic with the Gulf across Florida, appropriating a quarter of a million dollars for the expenses.

A Very Good Indian.

CHICAGO, May 1.
News was received at General Sheridan's headquarters to-day from Fort Washakie, Wyoming Territory, of the killing of Captain Jack, of the White River Utes. Jack was imprisoned there, and in attempting to escape killed a sergeant. As he was running away the guard fired after him and he fell at the first shot.

Suicide of a Flying Machine Man.

NEW YORK, March 1.
William Godfrey Krueger committed suicide to-day. Poverty was the cause. He was the inventor of a flying machine which he claimed would carry him to Europe in twenty hours. Krueger was a school-teacher in San Francisco for ten years.

Missouri Religion.

ST. LOUIS, May 1.
Yesterday 118,448 people attended divine service in this city, of whom 15,171 were Catholics; besides, 20,242 were in parks, gardens and other not very religious places. More than 6,000 of these witnessed ball games.

FOREIGN.

The Russian Jews.
ST. PETERSBURG, April 30.
General Ignatieff publishes a communication denying that the anti-Jewish disturbances are the result of want of action on the part of the government, and declaring that serious disasters have occurred only at Balta, where the Jews were in fault, as they began the demonstration in revenge for an insult to a Jew by a Christian child. Gen. Ignatieff states that elsewhere disorders have been arrested through the energetic measures of the authorities, which will be continued. It is reported that Jews are leaving Wilna en masse. Two hundred families started for America on Monday.

A Nihilist Scheme to Blow Up the Kremlin.

MOSCOW, April 30.
A man named Kobosiph Bogdanowitch recently submitted to the authorities a plan for the illumination of the Kremlin with electric light. Inquiries were instituted, and it was discovered that the intention was to blow up the whole Kremlin during the festivities attending the coronation

of the Czar. At the man's residence were found a number of peasant's caps, the crowns of which were filled with explosive material. It is supposed these caps were intended to be thrown into the air in a greeting to the Czar, and that on falling to the ground the contents would explode with the effect of bombs. Bogdanowitch and 300 Nihilists are arrested.

Flattering Lowell.

LONDON, April 30.
At a Royal Academy banquet last evening, Sir Frederick Leighton, in a toast to "Literature," mentioned James Russell Lowell's name, and said that wherever a work of Lowell was opened it showed passionate patriotism and burning sympathy with sufferers' wrongs. Lowell said this was too flattering a portrait. It was so different from some spirited pen-and-ink sketches he has been lately receiving from America that he had some doubt which of them he might resemble.

Irish News.

DUBLIN, May 1.
In a riot at Frankfort, County Kings, Saturday, a number of persons reported to have paid rents were fearfully beaten. The police arrested 30 persons and cleared the streets at the point of the bayonet.

The fact that gentlemen were allowed the unusual privilege of twice visiting Kilmahnam jail on Friday, has strengthened the belief that some diplomatic negotiations are proceeding between Parrellites and the Government.

WESTERN.

The Apache War.
SAN FRANCISCO, April 30.

A Lordsbury dispatch says: A party of ten or twelve bucks and fifteen squaws and children are reported in Burro mountains. They were on the old trail leading south from Gila. No depredations are yet reported from Burro. Company G, Twenty-third infantry, numbering 42, have arrived from Fort Bliss, and are awaiting orders. Three companies of infantry of the Twenty-third and one of the Twenty-first will arrive this evening. A courier reports Forsythe with seven companies of troops on trail, and will follow the Indians into old Mexico. He reports Forsythe as saying that he will follow the trail as long and far as it can be found.

A Tombstone dispatch says: Two men were killed by Indians at Dragoon mountains Saturday. It is supposed a large number of hostiles are in the mountains. A large meeting was held here to-night, to take action to raise a company of volunteers. Several hundred dollars were contributed and many volunteers enrolled.

Two Persons Burned to Death.

SAN JOSE, April 30.
The residence of John Brett of this place was partially destroyed by fire at an early hour this morning. Mr. and Mrs. Brett were not awakened by the flames until the house was completely enveloped and every means of escape cut off. As quickly as the fire was extinguished the firemen searched for the bodies of the unfortunate inmates. They were found, but horribly burned—charred beyond recognition. The fire is supposed to have originated from the upsetting and explosion of a lamp.

Catholic Provincial Council.

SAN FRANCISCO, May 1.
The Second Provincial Council of the Archi-Episcopal Diocese of San Francisco convened yesterday morning at St. Mary's cathedral, Rev. Archbishop Alamy presiding. The province embraces the dioceses of San Francisco, Grass Valley, Monterey and Los Angeles. A large number of Catholic clergy were in attendance. The Council will probably remain in session several days.

Drowned in Sacramento.

SACRAMENTO, May 1.
George Conner and Thomas McGee were drowned to-day by the upsetting of a boat while taking a row on the river. Both were employed at the capital cannery establishment.

TELEGRAPHIC BRIEVITIES.

—An industrial exposition at Queretaro, Mexico, opened to-day.

—Nearly all the New York journals come to the conclusion that the senders of the late murderous packages were Nihilists.

—A fire at Aberdeen, Scotland, Saturday, destroyed the New Market building. Three men were killed. Loss, £100,000.

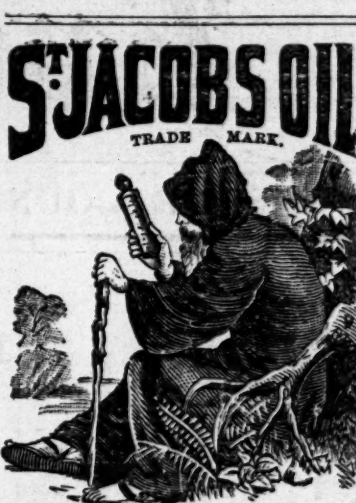

—Judge Otis P. Lord, of the Massachusetts Supreme Court, was stricken with paralysis on Saturday. Condition critical. Age 70.

—In a prize fight yesterday in Pennsylvania, lasting over an hour, Thopphus Anderson defeated John Green, both colored, and both badly beaten.

—There is reason to believe that both the Georgia Senators will retire from public life. Hall is fast sinking into despondency, and Brown has lung troubles and cannot stand Washington climate.

—Benj. F. Defano, formerly U. S. naval constructor, died in Brooklyn yesterday, aged 75. He had to do with Perry's expedition to Japan and Kane's Arctic expedition.

Observance of Old Customs.
Some curious old customs are still observed in London on Good Friday. By the will of Peter Symonds, made in the year 1568, sixty of the youngest boys in Christ's Hospital received after divine service on Good Friday morning in Allahowes Church, Lombard street, a new penny and a bag of raisins. On April 7, after a sermon by the prebendary, the requirements of the will were, for the 289th time, carried out. At St. Bartholomew's the Great, West Smithfield, twenty-one widows visited an ancient tomb in the churchyard, and each picked up a new sixpence. Though the name of the benefactress has been lost, the gift has been observed every Good Friday morning for the last 400 years.
